

BIODATA

Personal Information

Name: Dr. Bajarú Bhaskar

Designation: Scientist (Plant Pathology)

Date of Birth: July 3, 1990

Contact Number: +91 8297968097 / +91 8074484504

Email: bhaskar.bajaru@icar.org.in / bhaskar2008agrico@gmail.com

Official Address: ICAR-National Bureau of Plant Genetic Resources (NBPGR), Regional Station, Rajendranagar, Hyderabad – 500030, Telangana

Academic Qualifications

Ph.D. in Plant Pathology

Major Professional Achievements

- **Germplasm Quarantine Processing:** Associated with processing over 3,07,696 crop germplasm samples (1,09,113 imports and 1,98,583 exports) for biosecurity and phytosanitary clearance.
- **Quarantine Pathogen Interceptions:** Successfully intercepted high-risk pathogens including *Pyricularia grisea* (finger millet from Kenya), *Peronospora manshurica* (soybean from USA/Taiwan), *Plasmopara halstedii* (sunflower from USA), and *Bean common mosaic virus* (Bambara groundnut from Ghana), preventing their entry into India.

Key Research Projects

1. **Evaluation of Stress Tolerant Orphan Legumes for Dryland Farming Systems across Sub-Saharan Africa and India** (Co-PI, - On going)
2. **CRP-Agrobiodiversity Component-II Maize Programme** (Co-PI, 2022–2024)
3. **Quarantine of PGR under Exchange, Health Testing, Supportive Research & Related Biosecurity Policy Issues** (Co-PI, Ongoing)
4. **Characterization, Evaluation, Pre-breeding and Documentation of Agri-Horticultural Crops Germplasm** (Co-PI, Ongoing)

Research Publications

1. **Parameswari, B., Bhaskar, B., et al. (2022).** First Report of the Association of Zygocactus virus X with Dragon Fruit (*Hylocereus* spp.) plants from Telangana, India. *Plant Disease*, 107(4): 1249. (NAAS: 10.50)
2. **Parameswari, B., Bhaskar, B., et al. (2022).** First record of Cactus virus X in Dragon Fruit (*Hylocereus* spp.) in India. *Indian Phytopathology*, 75(1): 297–299. (NAAS: 5.99)

3. **Bhaskar, B., et al. (2021).** Elucidation of Tissue Specific Variability in *Pyricularia oryzae* Population Causing Rice Leaf Blast and Neck Blast. *Journal of Mycology and Plant Pathology*, 50(3): 299–310. (NAAS: 5.08)
4. **Bhaskar, B., et al. (2016).** Fungicidal action of mycogenic silver nanoparticles against *Aspergillus niger* inciting collar rot disease in groundnut. *Indian Phytopathology*, 69(4S): 605–608. (NAAS: 5.99)
5. **Bhaskar, B., et al. (2016).** Role of organic acids production in Pathogenicity of *Aspergillus niger* inciting collar rot disease in groundnut. *Indian Phytopathology*, 69(4S): 172–174. (NAAS: 5.99)
